

EEST Student Acquisition Strategy

Scaling from 400+ to 1,500+ Verified Students Across Pakistan

Author: Strategy & Admissions Team | Lead Trainer: Sir Tatheer (Master Trainer, Arfa Karim Incubators)

1. Why 'Cold Email Scraping' Fails & Destroys Reputation

CRITICAL RISKS OF MASS EMAIL SCRAPING:

- Blacklisting: Gmail/Spamhaus will blacklist emergingedge.tech, blocking all official emails.
- High Bounces: 60%+ scraped emails are invalid, triggering automatic suspension on email services.
- Zero Trust: Pakistani tech students do not open cold spam emails from unknown sources.
- Poor Conversion: Less than 0.1% enroll vs. 12%+ on inbound live workshop funnels.

2. High-Impact Inbound Strategies (Part 1)

STRATEGY 1: The 'Free 2-Hour Live Masterclass' Funnel (Highest ROI)

Concept: Host a 1-day free workshop led by Sir Tatheer: 'Build & Deploy Full-Stack App in 90 Mins'.
Funnel: Simple portal landing page -> Form (Name, Email, WhatsApp) -> Official WhatsApp Group.
Conversion: At the end of the masterclass, open Phase 4 course admissions live with exclusive promo.

Expected Yield: 300 to 600 highly motivated student leads per session.

STRATEGY 2: Campus Ambassador Network (KP & Nationwide)

Concept: Appoint 2 student leaders per university (UET, FAST, CECOS, Islamia College, UoP, NUST).
Perks: Free course enrollment, verified Certificate of Leadership, direct mentorship from Sir Tatheer.
Execution: Ambassadors broadcast EEST flyers & admission links into official batch WhatsApp groups.

Expected Yield: 50 to 100 organic student admissions per ambassador.

STRATEGY 3: Meta & TikTok Micro-Budget Lead Ads

Budget: Just PKR 2,000 - 3,000 test spend on Facebook/Instagram Lead Ads.
Target: Pakistan, Age 17-25, Interests: Web Dev, Flutter, Python, Graphic Design, Freelancing.
Hook: 'Learn from Arfa Karim Incubator Master Trainer' -> Instant 1-tap form.

Cost Per Lead: PKR 10 - 15 per verified phone number & email.

2. High-Impact Inbound Strategies (Part 2)

STRATEGY 4: University Tech Society Co-Branded Workshops

Action: Partner with ACM, IEEE, GDG (Google Developer Groups), and computing student societies.

Value: Provide a free technical webinar + co-branded certificate of participation for their members.

Result: Society officially broadcasts EEST admission links to 1,000+ verified CS students.

STRATEGY 5: '2026 Pakistan Tech Career Roadmap' Lead Magnet

Action: Create a 5-page PDF roadmap with local salary data, required tech stacks, and learning order.

Distribution: Post infographics on LinkedIn, Facebook groups, and status updates.

Capture: Students submit Name & WhatsApp to download -> Auto-nurtured for upcoming batches.

STRATEGY 6: The 'Bring a Study Partner' Student Referral Loop

Action: Offer existing 426 students: 'Bring a friend into Phase 4 and get bonus mentor office hours'.

Mechanism: Each student receives a unique referral code to share with university classmates.

Trust: Friend referrals have a 30%+ enrollment rate because existing students vouch for quality.

3. 30-Day Team Execution Roadmap

WEEK 1: Asset Setup	WEEK 2: Campus Outreach	WEEK 3: Live Event	WEEK 4: Onboarding
* Finalize Masterclass topic * Setup lead page on portal * Create WhatsApp group	* Onboard 10 Ambassadors * Distribute flyers in groups * Launch PKR 2K Meta Ad	* Deliver 90-min Masterclass * Live code real project * Open Phase 4 admissions	* WhatsApp closing calls * Verify student fees * Orientation for new batch

CORE TEAM ACCOUNTABILITY MATRIX:

- Sir Tatheer (Lead Instructor): Deliver high-impact live masterclasses and 30-sec technical reels.
- Admissions Desk (WhatsApp): Quick < 10 min response time to student queries & registration support.
- Campus Coordinator: Oversee university ambassadors and manage tech society partnerships.
- Portal Administrator: Instant payment verification & zero-data-loss system maintenance.
